NEW FUTURE

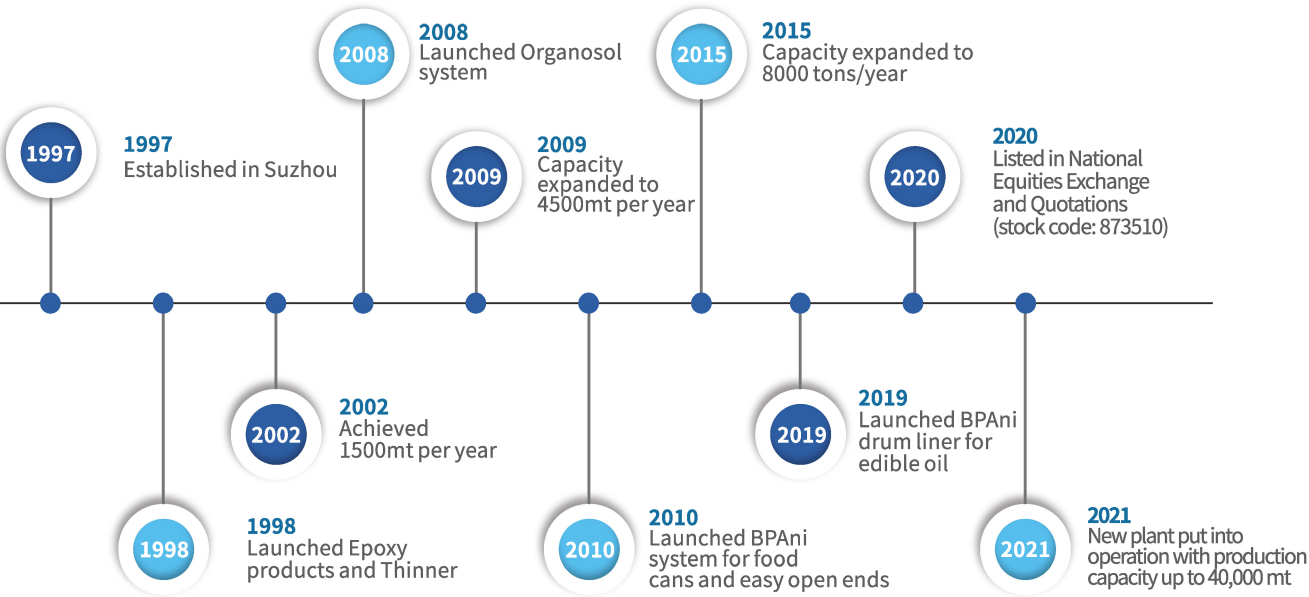

CREATE A NEW SUSTAINABLE FUTURE

COMPANY PROFILE

Founded in 1997, Suzhou 3N Material Technology Co., Ltd. is a professional manufacturer of metal packaging coatings, dedicated to the development, production and sales of metal packaging coatings. Our product range covers internal and external coatings of food and beverage cans, easy-open ends and other metal packaging products. As one of the major food can and easy-open end coating suppliers in China, our high quality products and excellent customer service have been recognized by many well-known packaging enterprises, and our products, winning the praise of customers, are used in the food packaging of famous brands at home and abroad.

COMPANY MILESTONE:

FAEOE

- ✓ 3N FAEOE Coating has excellent corrosion resistance and superior adhesion, which can ensure the shelf life of packaged food and secure the food safety.
- ✓ 3N is a one-stop supplier of FAEOE coatings, with a full set of interior coatings, exterior coatings and score repair coatings, including the BPAni solutions, which can provide customers with competitive products and services.
- ✓ Withstood the test of time and went through a variety of packaging tests, 3N FAEOE Coating has been facing the market for more than 25 years, and has won market recognition and good reputation with high quality products and perfect customer service.
